

# ***Dear neighbours!***

If you are over 65 years old and/or have a weakened immune system, I would like to support you in staying healthy.

I don't belong to a high risk group and could help you with smaller errands or purchases in the next weeks.

You can simply hang a note on my door or drop it in my mailbox or call me.

Together we can make it through this pandemic! ♥

All the best,

My phone number:

My door number/address:

**If you need support, please leave your name here:**

**If you can offer support yourself, please leave your name here:**
